

The Ten Year Career Resources Chapter Ten: Take Action!

Important Takeaways from Chapter Ten:

Knowledge without action is just information

One of the biggest things that holds people back from reaching their goals of becoming successful, wealthy, and fulfilled, when they have the right information, is that they do not act on it.

Do not *get a job just to get a job*. If you are going to work, make sure what you do is contributing to getting you closer to your goals by either helping you learn a particular skill or increasing your knowledge in the area in which you wish to attain success, wealth, and fulfillment (this is using leverage!)

There are many businesses that you can start, full time or part time, and sometimes, the part time businesses turn into the full time businesses. One place to look for an easy to start part time business is in the “Direct Sales” world.

Learning to invest in real estate or the stock market takes a commitment and discipline to learn the different skill sets, knowledge sets, and processes to be successful. If you are interested in these areas of investing, please take the time to learn first by reading at least 2 books on the topic you want to study and attend one live seminar.

Remember, money is just an idea and information is currency. You can create wealth out of anything. You just have to open your mind and step out of your comfort zone to make it happen!

Take Action!
